

EMPATHY MAP

Team ID: SWTID-2026-6530

Project Name: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

PERSONA

Name: IT Procurement Team Member

Role / User Type: IT Procurement / Service Request User

SAYS

- “I need the standard laptop request to be processed quickly.”
- “The laptop configuration task should reach the Hardware team on time.”
- “I want to avoid unnecessary manual steps in the procurement process.”

THINKS

- “The configuration task may be delayed if it has to be handled manually.”
- “An automated workflow could make the process faster and more efficient.”
- “The request should automatically move to the Hardware team after approval.”

DOES

- Places a Standard Laptop request through the Service Catalog.
- Waits for the request to be approved.
- Checks the requested item and Catalog Task status to confirm that the laptop configuration task has been created and assigned.

FEELS

- Frustrated when the procurement or configuration process is delayed.
 - Concerned about increased waiting time.
 - Satisfied when the request is automatically processed and assigned to the Hardware team.
-

CUSTOMER NEED

The user needs a **simple and automated standard laptop procurement process** that creates the configuration task after approval and assigns it to the Hardware team without unnecessary manual intervention.

PROJECT SOLUTION

Use **ServiceNow Flow Designer** to automate the standard laptop procurement workflow, including Catalog Task creation and assignment to the Hardware group.
