

DEMONSTRATION OF PROPOSED FEATURES

Team ID: SWTID-2026-6530

Project Name: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

Demonstration of Proposed Features

S.No	Feature Name	Description	Status	Demonstrated Remarks
1	Standard Laptop Service Catalog	Provides a Service Catalog item for users to place standard laptop orders.	Implemented Yes	Standard Laptop option is available under Hardware in Service Catalog.
2	Laptop Request Submission	Allows users to place a standard laptop request through the Order Now option.	Implemented Yes	Request can be submitted successfully through Service Catalog.
3	Request Approval	Processes the laptop request through the approval stage before configuration.	Implemented Yes	Request approval is completed before the Catalog Task is generated.
4	Automated Catalog Task Creation	Automatically creates a Catalog Task after the laptop request is approved.	Implemented Yes	Flow Designer creates the task with the required description.
5	Hardware Group Assignment	Automatically assigns the laptop configuration task to the Hardware group.	Implemented Yes	Catalog Task is assigned to the Hardware group.

S.No	Feature Name	Description	Status	Demonstrated Remarks
6	Task Status Verification	Allows the team to verify the generated Catalog Task and its updated details.	Implemented Yes	Short description and assigned group can be verified in the Catalog Task record.

The features above are based on the project workflow documented in your project:
Service Catalog request → approval → Flow Designer → Catalog Task creation → Hardware assignment.

Feature Implementation Summary

Item	Details
Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6

Overall Implementation Rate (%) 100%

Overall Implementation Rate

(Total Features Implemented ÷ Total Features Proposed) × 100

(6 ÷ 6) × 100 = 100%
